

Special Investigations (Hunters)

- [Note](#)
- [Todd Materson - Wick](#)
- [Sofia Colombo - Sara](#)
- [Isabelle Greene - Kala](#)

Note

Hunters are Special Investigators (or contracted by them). A unit in the Police force.

A bit like Mulder and Skully from X-Files (been a while since I saw it), more SI from The Dresden Files where the department is super under-funded but you get all the weird supernatural cases to deal with and spin some BS to journalists about what 'really' happened.

Todd Materson - Wick

The Crooked

Missing notes: I think was sent to SI for investigating / cross Don Giovanni. Trying to bust him but due to corruption he failed and was demoted to SI.

Connections

Todd > [Sofia](#)

Sofia is Todd's moral compass. When he talks things over with them, their advice keeps them on the straight and narrow

Todd > [Isobelle](#)

Isobelle saved Todd's life when a monster had the drop on him. Now he owes them one. Monster: Werewolf.

Todd was forced to sever his left arm after being infected in [Case 26-0627](#)

Sofia Colombo - Sara

The Flake

Investigating a case, she got too close to uncovering something about the police super intendant.

Connections

Sofia > [Isobelle](#)

Isobelle is somehow tied into it all. Sofia is keeping an eye on them.

Sofia > [Todd](#)

Todd came to collect packages from [Giovanni](#)'s pizza place, Sofia knows Todd from working summer jobs there.

Isobelle Greene - Kala

Professional

A new recruit, also the chief's daughter, kept fumbling so much she got sent to the basement (SI).

Connections

Isobelle > [Sofia](#)

On the agency's watchlist. Isobelle has been told to keep an eye on Sofia.

Isobelle > [Todd](#)

Met on a mission, worked together unofficially. And successfully. Standard beat cops, parking violation, got the vehicle towed, turned out to be a bank robbery. Hailed as heroes of the day for their accidental towing.
